Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found for claim 1 (a method claim) was the mounting stem extending longitudinally along a majority of the barrel; for claim 4 (a method claim) the subject matter not found is the cartridge being able to forwardly move over the seal while the seal is fixed to the stem, which allows fluid to be injected into the patient and out of the needle; for claim 8 the subject matter not found are two different radial extending elements one at a proximal portion of the barrel and another in the distal portion of the barrel and wherein the ampoule has a plug that attaches to the stem and the ampoule is moved in a forward direction which allows fluid to be injected into the patient and out of the needle.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
